About Me

Enthusiastic and motivated aspiring Software Engineer with a strong foundation in Computer Science. Passionate about building real-world applications, solving complex problems and continuously learning new technologies. Eager to contribute to innovative teams and grow as a developer in a challenging environment.

Key Skills

Programming Languages : Java, JavaScript, HTML, CSS, C++, SQL, R

Frameworks & Libraries : Spring Boot, React, Node.js, Express.js

Databases : MySQL, MongoDB

Tools & Platforms : Git, GitHub, Linux/Unix, Postman, VS Code

Concepts : Data Structures & Algorithms, Object-Oriented Programming, Multithreading, Database Management, Computer Networks, Operating Systems

Languages

- English
- Hindi

Hobbies

- Cinematography
- Badminton

Extra Curricular Activities

• URJA 2026

Served as Sports Coordinator for URJA 2026, the annual inter-college sports fest, managing end-to-end coordination of 10+ sporting events with 500+ student participants. Led a team of 15 volunteers, handled event scheduling, venue logistics, and ensured smooth execution across all competitions.

Education

B.Tech/B.E. - Bachelor of Technology / Engineering - Computer Science and Engineering (CSE) 2028

Thapar Institute of Engineering and Technology
Grade - 9.45/10

12th 2023

Xtra Edge School, Imphal, Manipur
Grade - 93.6%

10th 2021

Tiny Tots' Unique School, Imphal, Manipur
Grade - 92.6%

Projects

Lost and Found Portal

- Developed a college Lost and Found web portal using HTML, CSS and JavaScript enabling students to report and search lost/found items on campus.
- Implemented item categorization, search and filter functionality, and a clean UI for easy browsing.
- Designed to simplify the process of recovering lost belongings for college students.
- <https://github.com/amarjit81/lost-found-app>

Tic Tac Toe Game

- Developed a Tic Tac Toe game in Java implementing OOP principles with a two-player mode and an AI opponent using the Minimax algorithm.
- Designed game logic with win detection, draw conditions, and a replay feature.
- Built a clean console-based UI with modular and reusable code structure.
- <https://github.com/amarjit81/Amarjit-Tic-Tac-Toe>

Flipkart Clone - Frontend

- Developed a Flipkart clone frontend using HTML, CSS and JavaScript replicating core e-commerce UI features.
- Implemented product listings, search bar, category navigation, product detail pages and shopping cart.
- Focused on pixel-perfect design and smooth user interactions.
